## Menyiapkan database system ( MySQL/ MariaDB)

19 September 2018 14:26

➤ Install XAMPP

(<a href="https://www.apachefriends.org/index.html">https://www.apachefriends.org/index.html</a>) / LAMP
(linux) / WAMP (<a href="http://www.wampserver.com/en/">http://www.wampserver.com/en/</a>)

Atau install MySQL ( <a href="https://dev.mysql.com/downloads/installer/">https://dev.mysql.com/downloads/installer/</a>)

## Download contoh database "classicmodels":

- 1. <a href="https://github.com/handaga/Database-Management-System-2017">https://github.com/handaga/Database-Management-System-2017</a>
- 2. <a href="http://www.mysqltutorial.org/mysql-sample-database.aspx">http://www.mysqltutorial.org/mysql-sample-database.aspx</a>
